GROHE
SPA

A woman with her hair tied up is shown from the chest up, looking down with her eyes closed. She is in a shower, with her hands near her face. The background is a soft, warm pinkish-red color, suggesting steam and a relaxing atmosphere.

ALL OF THE SENSES IN PERFECT HARMONY

Immerse yourself in a world of relaxation and well-being. A world in which your entire body is surrounded by water heated to the perfect temperature, in which light and music can be adapted to suit your mood, and soothing steam relaxes every muscle. A world of well-being in which design and comfort combine to form one harmonious unit, where a single hand movement transforms your shower into your own personal spa. Welcome to the world of GROHE F-digital Deluxe, the unique shower experience for all of the senses.

GROHE F-digital Deluxe is a completely new shower concept, which goes beyond the normal functions of bodycare and cleansing to deliver a unique sensory experience. Atmospheric lighting, gentle steam and relaxing music have a positive effect on your physical, spiritual and emotional well-being and become part of your daily shower experience thanks to the GROHE F-digital Deluxe light, steam and sound modules. All of the functions can be controlled simply and intuitively using an Apple iPod touch 4G.

A UNIQUE EXPERIENCE FOR ALL THE SENSES

Made for
iPod

TOUCH

With just one touch you can transform your shower into your own personal spa. Soft lighting, relaxing steam and your favourite music – with the Apple iPod touch 4G you can stimulate all of your senses with just a single movement of the hand.

LIGHT

Colour has a positive effect on our sense of well-being. But we all perceive colours differently. With the GROHE light modules, you can change the colours to suit your mood and enjoy a personalised chromotherapy experience while showering.

SOUND

There's nothing on this earth that moves us more than music. The perfect song or sound can fill us with joy, make us feel relaxed, recharge our batteries or help us forget our troubles. With the GROHE sound modules, you can now enjoy your favourite music while showering.

STEAM

Experience regeneration in its purest form with the GROHE steam modules. Gentle steam not only enhances our sense of emotional well-being, but also has a positive effect on the entire body. It opens the pores, detoxifies the body, hydrates the skin and helps the muscles to relax.

The F-digital Deluxe docking station, the base unit box and the Apple iPod touch 4G are required for operation of light, sound and steam – and individual modules. Apple iPod touch 4G and the GROHE SPA® F-digital Deluxe app cannot be purchased from GROHE and must be purchased separately from an authorised Apple retailer/iTunes.

MIND AND BODY IN PERFECT HARMONY

Music and sound have a positive effect on our mind and body. The perfect song during your morning shower helps you to kick-start your day and in the evening it helps you to unwind after a hard day's work. Thanks to the sound modules and Apple iPod touch 4G, GROHE F-digital Deluxe delivers a unique experience that allows you to listen to your own personal playlist while enjoying an audiotherapy experience in your shower.

COLOUR TO MATCH YOUR MOOD

Every colour has a different wavelength and therefore its own energy, which has a varying effect on the mind and body. Red represents vitality and activity, while blue is considered to be a calming colour. One of our primary objectives when developing GROHE F-digital Deluxe was to give you the opportunity to change the lighting to suit your mood, and allow you to enjoy your own personal chromotherapy experience while in the shower. Using an Apple iPod touch 4G, you simply select the colour that you wish to have during your shower from a specially designed

colour wheel. For example, you might wish to start your day with stimulating yellow, enjoy soft purple after a steam bath or get an exciting evening off to a great start with optimistic orange. With GROHE F-digital Deluxe you can integrate up to four high-quality LED light modules into your shower, all of which are dimmable. You can therefore choose a light intensity that reflects your mood. And, of course, you can save all of your settings so that the perfect colour for tomorrow morning's shower is just a movement of the hand away.

F-DIGITAL DELUXE SMALL

Even in a smaller shower cabin of 100 x 100 cm, you can install a luxurious shower, with GROHE SPA® showers. With two light modules and two sound modules installed in the ceiling, you can enjoy chromotherapy and sound therapy. These modules are complemented by a GROHE Rainshower® F20" XL ceiling head shower and three side showers for full-body coverage. Control water flow and temperature with Allure F-digital, equipped with a GROHE TurboStat® thermostatic cartridge. You will reach the desired temperature in a fraction of a second and maintain it for the duration of the shower.

Install the eye-catching Rainshower® F20" with four high-end LED lights to have more intensive light in the shower. The six Rainshower® F5" side showers on the left and the right side are complemented by the F5" sound modules for a real stereo aqua and sound effect. Combine the showers with the powerful and flexible Grotherm F mechanical water controls – always the right temperature – and a Sena hand shower.
