Tesseraux + Partner – Dominik Tesseraux

“At a first glance the iLook_move does not reveal all it can do. The aim of our design was to integrate the different functions in such a way that the product appears elegant and timeless. This is an intuitive and charming product which one does not want to do without after using it for the first time”.

Tesseraux + Partner designed the cosmetic mirror iLook_move

THE PERFECT LIGHT FOR THE PERFECT MAKE-UP

Begin the day perfectly styled: Feeling beautiful means feeling good. It is no wonder that a cosmetic mirror is right at the top of the popularity scale of daily beauty care accessories. The cosmetic mirror iLook_move from KEUCO, available in round and rectangular shape, fulfils all your needs for your health care and wellness routine – be it at home or in a hotel.

Designed by Tesseraux + Partner, the glare-free lighting technology with a magnification factor of five, is available in two versions: With one or two light colours. The light colour of both illuminated versions corresponds to the colour temperature of daylight, as also used in professional beauty salons. The optional second light colour in warm white provides flattering light – ideal for example, for ensuring your evening make-up is just perfect. What is absolutely unique is that the two light colours are infinitely variable. iLook_move always puts the viewer in the right light, according to individual preferences.

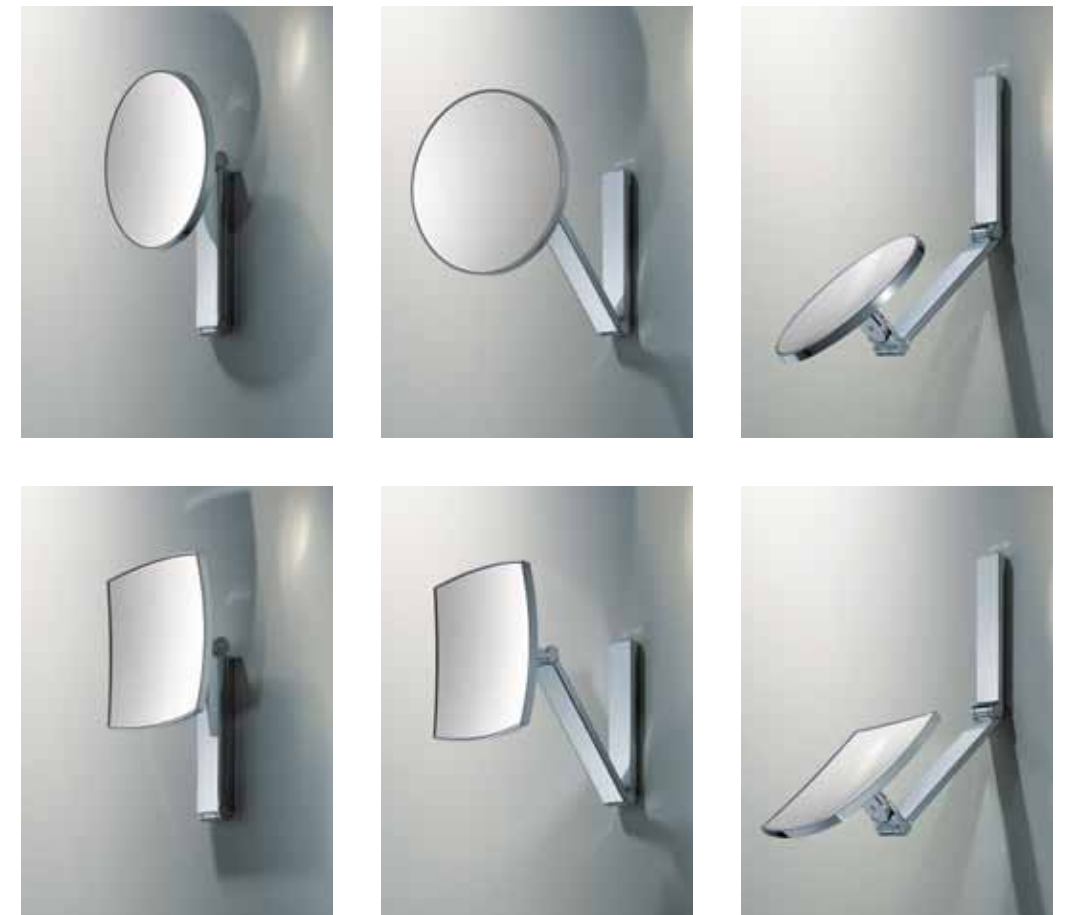

Whether with one light colour or an elegant glass control panel with touch sensors, the iLook_move is high-tech for beauty care and at the same time is also a perfectly shaped gem that gives off a sensual aura of elegance. The LED lamps are durable and power consumption is minimal. If a concealed installation is not possible in your bathroom, then a version with a wall plug transformer is available.

ERGONOMONIC AND FLEXIBLE

As a practical utensil for your daily beauty routine, KEUCO's cosmetic mirror iLook_move is particularly impressive thanks to its high quality mirror surface and the slim, elegant design – either round or rectangular. But also the innovative unusually refined and durable hinge technology leaves nothing to be desired. The adjustable arm means that iLook_move is extremely flexible. The mirror can be turned up or to the side and tilted for an ideal angle. The unique hinge system also makes it perfect for frequent use of the mobile arm such as in hotel bathrooms.

PRODUCT OVERVIEW

In accordance with our manufacturer's guarantee declaration, we assume a guarantee of five years for our products, provided that the product was verifiably purchased and installed by a franchised trade dealer.

The guarantee period commences with the date of delivery ex works. The statutory warranty period is included in the guarantee period. This guarantee excludes electrical components and light bulbs.

The extraordinary surface characteristics and extremely fine colour nuances of our products can only be reproduced to a certain degree in print. Only the original KEUCO products, which can be viewed in sanitary trade dealers' showrooms, can provide you with an optimum impression.

Reproduction and copying, even if only excerpts, are only permitted by explicit permission of the manufacturer, and with the inclusion of source information.
